

"Friendly Neighborhood IT Guy"

– ON SCHOFIELD BARRACKS –

8+ years IT experience, and privacy and security enthusiast!

Want your computer faster? More private? More Secure? Let FNIT take care of you!

Packages:

1. Jet speed - \$20

- Your computer will be made as fast as possible without hardware changes. This may be a major or marginal difference, depending upon hardware.

2. Secured Jet Speed - \$25

- Your computer will be made as fast as possible. You'll also receive a dramatic privacy and security upgrade. No hardware upgrade.

3. Light speed - \$30 + cost of parts

- You'll receive the Secured Jet Speed package and whatever hardware upgrade will benefit your computer. This may be RAM, an SSD or something more serious. This package will make a dramatic difference in responsiveness, particularly for computers that have been around awhile

4. Other services - Free or more:

- Open Source Intelligence Investigations, Linux, Crypto mining setup help, custom computer building, repair, and consulting, confidential privacy and security consultations, software requests. If you need it done I can most likely do it.

I can do this from the comfort of your home, or you can drop it off at mine. Email me or text if you have any questions.

10% off if you pay in crypto! BTC, XMR, and ETH preferred.
